

Davam Diamond Glow PRE/POST Care Instructions

Pre-Treatment Instructions:

- Arrive to your appointment with a clean face. Wait at least 6 months post Accutane/Isotretinoin before treatment.
- Avoid any harsh treatments such as chemical peels, waxing, electrolysis, laser treatments, or threading one week prior, and avoid topical products such as Retinols, AHAs, or Vitamin A three days prior.
- If you have a history of cold sores, take an antiviral 48 hours prior to your treatment and the day of your session. Inform your provider if you are pregnant or breast feeding or if you have any medical conditions, including allergies, and usage of topical medication on the area to be treated.
- Patients with active cold sores, open wounds, sunburn, abrasions, active facial dermatitis, facial or scalp psoriasis, facial eczema, inflammatory rosacea in the area will have to re-schedule treatment once symptoms have resolved. Please call our office to reschedule before your appointment.

The final decision to proceed with your treatment is at the discretion of Davam Aesthetics Providers. We care about your safety and comfort.

Post-Treatment Instructions:

- Use sunscreen with a SPF 30 or higher following treatment.
- You may resume normal, gentle skin care immediately after treatment. No exfoliating for 2 weeks post treatment. Avoid the use of AHAs, Retinols, Vitamin A 1 week post treatment.
- We recommend follow up treatment at 4-6 weeks Typical side effects may include a scratchy, stinging sensation during the treatment and temporary tightness, redness or slight swelling after the treatment. This generally resolves within a few minutes or up to a couple hours.

If you notice any prolonged symptoms, please contact Davam Aesthetics. If you have any questions or concerns, please contact our office at **713.487.3010**
